Our Illinois office recently relocated to an office building that they purchased in late 2003. The 2-story building was purchased from the Brotherhood of Railroad Signalmen Union who remained as a tenant in the building until their move to the Washington D.C. area in December of 2004.

Demolition began in March of 2005 and construction continued until late September. The office officially moved over the first weekend of October. The Illinois office resides in the majority of the second floor with tenants occupying the entire first floor.
